## **NICKNAMES**

**Nicknames are some common things in life. It is often an emotional term, practical to call someone but are all nicknames nice? Are they all invented for a good purpose? This is what we are going to show.**

**I interviewed some friends and they told me that nicknames were important in life, it allowed us to differentiate ourselves and have a little more complicity with the people we call. On the other hand, they can't please everyone and some use them badly in order to hurt and make fun of someone. To avoid this, they think that it is simply necessary to ask the person's opinion to know if they agree or not to be nicknamed so.**

**I agree with them because I like to give nicknames and I love to be given them. In my opinion it is something good when you use them wisely. There are some students who don't like it because they simply don't like it and I respect their choice.**

**To end with, when nicknames are used in a good way we have a good time with friends and we feel good and appreciated.**

# **New Year's School Resolutions**

**by BEAUCAIRE Mélyssa**

**Every year, we all choose a resolution that is good or bad for the school year, but the problem is that most of the time, we drop it either because it's too hard or because of a lack of motivation. What could be the solution to this problem?**

**To find the answer, I asked my classmate Esthia. She said that for her the best solution was to make a schedule to follow so as not to forget the resolution. She also said that you also have to set a goal that really corresponds to you and not just follow what others would do. To conclude she said that it is important not to rush to want to achieve your resolution but to take your time to get there.**

**1.**  
**2. In my opinion, Esthia is right because me too most of the time I abandon my resolutions because they no longer motivates me. I would suggest defining your resolutions as several clear and precise objectives that should be achieved little by little without forcing yourself and creating a table that will define the whole path to follow but at our own pace. Moreover, with that we have more chance of not forgetting our resolutions.**

**Finally, having well-prepared plans to keep our resolutions to the end allows us to reach our goal and realize our dreams.**

## **What's new in the school this year**

**This year, we have a new supervisor. It's nice to have a new supervisor. Is having a new supervisor very important ?**

**This is what we are going to show.**

**I interviewed my friend. She said that a new supervisor was a good decision. She told me that having a lot of animation in the school was the most important thing. She also said that the uniform was something unimportant in the school. She declared that the new supervisor was nice.**

**In my opinion, my friend is right because there are many news things. Indeed, there are more new materials like tablets...Moreover students will fight less and they will not complain about, being bored, or being new in the school... However, students must have the necessary new things this year.**

**To end with, having a lot of new things, the pupils will feel better. They will learn with a good atmosphere and the best equipement. This year, the school will have better things.**

# **How does cinema influence society ?**

**Some films play a sensitizing role and offer a real awareness of certain socio-economic elements. They influence society because they carry a message, values to defend, or take political positions.**

**I interviewed a friend of mine. She said that for her, cinema was a powerful, very dynamic industry that generated many jobs in the territory ( and internationally). She also told me that to create cinema films, you needed directors , audiovisual technicians and promoters . She said that cinema also energized the local associative fabric , by making cultural associations, neighborhood cinemas work with.**

**As far as I am concerned , cinema has become a popular art, an entertainment , an industry and a medium . It can also be used for advertising, propaganda , pedagogy or scientific research purposes or as part of a personal and singular artistic practice .**

**Conclusion , the phenomenon of influence of cinema can impact many facets of our daily lives and the world in which we live : Violence, way of thinking , political ideas or even religious principles**

## **Studying and living in Guadeloupe or Going abroad?**

**Life is not easy in France. Above all when we do not have family members over there.  
What is the best decision to take?**

**I interviewed a friend about her experience. She said that she didn't know that her life was going to change so dramatically during her four last years. At her arrival in France my friend lived at a lady's with her two kids. A year passed and she felt a bad feeling so she decided to ask a friend. She found a flat and graduated. She found a work then returned to her family. To her mind, the best decision was to go back to her island after these four years.**

**I believe that without the family and the friends we wouldn't go as far in life.**

**As for me, if you have projects abroad, but you have no place to stay or no contact, better go nowhere.**

# **Best band and favorite concerts experiences**

**Concerts are places to have fun and sing with family and friends.**

**What's your best band of music ? Are all the concerts fun?**

**I interviewed my friend Eden, she told me that her favorite best band was the Jackson five, because they had angelic voices and were one of the first families of young black people to have succeeded in the world of music. She said that her favorite song of the band was " I want you back". She also told me that she had gone to the Kalash singer's concert in 2015. Eden said that it was incredible because everyone was singing and having fun.**

**As far as I'm concerned, I agree with Eden, concerts are very exiting but it's also very dangerous. Indeed, the crowd can be violent and invasive. Moreover, you can get robbed and assaulted, you can also get pushed and stepped on.**

**To end with, there are bad and good concerts. Each person has his own experience.**

# What is the best breakfast in the world ?

**In all the best countries the breakfasts are different. Eggs with white beans, fruits with cheese.**

**Are they ever well balanced ?**

**I interviewed my mom and she told me that breakfast was the most important meal of the day. She said that in Guadeloupe, coffee or chocolate were essential. And finally she told me that it was balanced.**

**For me, breakfast is different in England, for example, they eat white beans, sausages and bacon, it's very fatty, but in another countries like France, there are fruits, croissants and fruit juice. Only a person can choose his breakfast according to his taste and his desires.**

**To conclude, breakfast can be balanced according to you : fruit, dairy product, bread, chocolate or peas, bacon or ham. Choose the right combo!**

# The binge-worthy: Favorite TV Shows

TV shows have grown in popularity in recent years with the increase in the number of streaming platforms. There are so many TV shows available that it can be hard to choose what to watch. Everyone has their own preferences whether it's drama, comedy, horror or even romance. In this article, I'll explore favorite TV shows and why they're so popular.

I interviewed my cousin, Maria. She said her favorite TV show was Stranger Things. She told me she liked the 80s vibe and the supernatural plot. She also said that there was nothing she disliked about the show but the plot could feel slow. She declared that she was looking forward the season 5.

In my opinion, Stranger Things is captivating and well done with endearing characters and a plot full of twists and turns. I like the retro atmosphere with the cultural references of that time. As far as I'm concerned, it's my favorite series too. In my view, it is a series that I recommend to lovers of science fiction and adventure.

Finally, TV shows are a popular form of entertainment and the year 2022 has been marked by many captivating series. Whether you like drama, comedy or thriller series, there is something for everyone.

## **What is love obsession ?**

**While it is normal to think about your loved one when you are in love, obsession With love is pathological, a source of inappropriate behavior.**

**How to rest and get out of it ?**

**At the beginning of a relationship it is normal to think very often of the one you love. They estimate that this duration is 4 hours daily !**

**When you have limerence, you feel a real obsession for your loved one.**

**The differences between love and obsession are numerous, even if they can be confused at first. Limerence is a form of obsessive love which may start out as a crush, but quickly shows its most extreme form, becoming a real problem both for those who suffer from it and for those who are the object of the obsession.**

**In love and falling in love, we experience the first intense feelings and absorbing reactions of the other person, which eventually adapt over time to lead to a more stable, healthy and committed relationship.**

## **Concert Experience**

**People are happy to go to a concert  
Why is there so much noise at a concert ?  
To my mind there is an explanation about this  
question**

**I interviewed my classmate . He said that his  
concert was noisy.**

**He told me that the music, the artists, the  
atmosphere and the multicolored lights were the  
most important things in his concert .  
He also said that nothing was unimportant in his  
concert. To conclude he declared that the  
solution was private concert .**

**In my opinion, he is right because a concert is  
noise. I will suggest to take a private concert in  
order to have fewer people and less  
noisy music .**

**To end with there are fewer people, less artists  
and less multicolored lights and quieter music, in  
a small private concert**

## **What are the most striking technological innovations of 2020, including those related to hoverboards?**

**Wearable technology should offer us practical features, accessible anytime and anywhere, to facilitate our daily lives. But then, why do many people use these tools for unreasonable purposes ? In my opinion, it would be due to the fact that these people want to force less and there is a word that answers this question - laziness.**

**Unfortunately, these wearable technologies are quite common in urban settings. So why do I say unfortunately ? Because in 2021 the hoverboard would have taken 27,000 children to the emergency room. And that's why doctors warn about the risk of injury associated with the use of these boards, including fractures, head trauma and bruises.**

**For example, a friend of mine had a rather painful experience with this type of technology. He explained to me that he was riding his hoverboard in a park and at some point he got distracted by something and his board hit a tree branch and caused him to lose his balance. And because of that they had to take him to the hospital to receive treatment for a bruise. Since that day he said he wouldn't make the same mistake twice, it served as a lesson to him. In any case, after this incident, he never had a problem again.**

**But then what should be done to prevent this kind of accident from happening more often ? I think, the best and most recommended solution is to wear protective gear, including a helmet, knee pads and elbow pads. Above all, it is important to maintain a safe environment and to supervise children carefully, especially when they are playing or using motorized toys.**

**In conclusion we should be careful about our use of wearable technology such as hoverboards. Because it can involve several risks, such as having serious injuries or finding excuses to avoid exercising or walking longer distances, which could be considered laziness. This is why we must all be careful about how we use these tools because even if they are very useful, they can sometimes be bad for us.**

## **New Year resolutions**

**Who says New Year, says resolutions. We have all already made a list of good resolutions for the coming year at least once. In this article we will talk about these resolutions and more specifically school resolutions. We'll see if writing resolutions is useful these days.**

**What are your school resolutions? I was able to ask my sister about it. She told me that she would try to participate more and get better grades She said that she would like to progress in the subjects where she is not strong. Do you think resolutions are helpful? She told me that for the most part she found it useless but that helped her to move forward and to set goals.**

**For me, my sister is wrong to say that resolutions are useless, on the contrary, writing resolutions could help us learn to persevere and always move forward, especially when it comes to school resolutions. It helps us to set goals and teach us to always want to achieve our goal.**

**In conclusion, school resolutions can be useful to us according to the goals and objectives of each one. All depends on our motivation to succeed in meeting these objectives.**
